Tom Bradley

Phone: (619) 972-2542, **Email:** bradth01@gmail.com
GitHub: goo.gl/IfImnr, **LinkedIn:** goo.gl/xHHGVh, **Portfolio:** goo.gl/3pZyXt

Technical Skills

Proficient: JavaScript (ES6), Node.js, React, React-Native, Angular, Express, Sequelize, HTML5, CSS/SASS, JQuery
Knowledgeable: Mocha/Chai/Jasmine Testing Frameworks, Gulp, Socket.io

Projects

MaxLifts – Sole Full Stack Developer: https://github.com/bradth01/MaxLifts   **September 2016**
- Built workout-tracking iOS app using React-Native that allows users to save exercises. The app automatically calculates and instantly updates number of reps and the weight that should be used in warm-up and work sets as user's strength increases.
- Developed on my own

Technologies Used: React-Native, Node.js

Downtime – Full Stack Developer: https://github.com/bradth01/capstone   **June 2016**
- Built location-tracking productivity app for iOS using React-Native framework that tracks how much time users spend at locations throughout the day.
- Implemented the Log feature, which dynamically generated an interactive ListView of editable locations by querying our app's AsyncStorage component. Implemented custom autocomplete component to improve user experience.

Technologies Used: React-Native, Sequelize, Express, Node.js

TowelTown – Full Stack Developer: https://github.com/bradth01/towel-town   **June 2016**
- Fully functional e-commerce web app built using the SANE stack. Was personally responsible for implementing entire set of Admin features, working across the full stack. Also helped implement backend API routes and database models for all products using Express and Sequelize.

Technologies Used: Angular, Sequelize, Express, Node.js

Experience

Behance - Community Experience Associate   **April 2015 – April 2016**
- Acted as sole support agent for Behance ProSite while it was being phased out.
- Worked closely with dev team while testing; creating bug reports for Adobe Portfolio.
- Acted as liaison between developers and users; identifying whether or not users issues were bugs.
- Created major bug reports as issues on Github.
- Wrote and edited FAQ articles for Behance knowledge base.
- Responded to over 9000 help tickets with 98% customer satisfaction rating.
- Trained 2 community intern

Collaborizm - Digital Marketing Intern   **November 2014 – April 2015**
- Managed and created all digital/social media content.

Dakota Personal Training and Pilates - Manager   **May 2014 – April 2015**
- Managed front desk operations.
- Handled sales of new membership packages and collection of administrative/late fees.

Education

Fullstack Academy of Code   **April - July 2016**
Gettysburg College: BA in Political Science   **2009 - 2013**
- Presidential Scholarship
